

PELSUE®

TRADITION+INNOVATION

"Continuing the Tradition of Excellence Since 1963 ..."

Since the inception in 1963 – the T.A. Pelsue Company has designed and manufactured high quality equipment to improve the personnel efficiency and working conditions in various underground, confined, and outdoor areas.

Founded by T. Allen Pelsue, the company has established a continuing reputation for excellence in the production of fine products for a broad spectrum of industry throughout the world.

Now, in our second generation of family direction, continued commitment to innovation and quality makes Pelsue a leading source of equipment for many types of confined spaces. We specialize in safety, retrieval, fall arrest, ventilation, cable placing, splicing, and maintenance nationally and abroad. With more than 70,000 square feet of facilities available, Pelsue continues the dedication that has made us pre-eminent in this field.

RESCUE AND SAFETY

We offer a complete line of rescue, retrieval, and fall arrest equipment. From davit systems to tripods, we have the safety equipment to meet the most demanding emergency situations. Whether you prefer cable or rope for rescue, we have the equipment you need to be prepared.

FALL ARREST

Our fall arrest equipment keeps you safe when working at heights. All models feature a swivel tie-off point for up to three persons. Various styles are available including aluminum and for carbon-fiber construction as well as fixed or adjustable heights.

Davit Arm Retrieval System (with Vehicle Hitch-Mount)

VENTILATION

We offer many styles of ventilating products for confined spaces. Choose from axial, centrifugal, steel, plastic or hazardous location units. Our polyethylene blowers & "Air Pac" hose consisters are extremely rugged and will protect your investment for many years. Many of our ventilators are CSA certified.

HEATING

We offer several styles of heating products for tents, manholes, and vaults. Choose from radiant style tent heaters, inline blower/heater units, or combo blower/heater units. All of our heaters are CSA certified. Contact us for all your ventilating and heating requirements.

GAS MONITORS

The Pelchek-MAX400 series gas detectors complete your underground safety package. These units are watertight & easy to use: just turn it on and go to work! The single sensor cartridge is easily replaceable in the field and requires no factory service. The large LCD displays 4 gases simultaneously and features easy to use buttons for scrolling through menus. Enforcer calibration system features fully automated bump check and calibration in less than 90 seconds.

MANHOLE TOOLS

We've got you covered for all your manhole safety needs. Featuring manhole guards & shields, fiberglass manhole covers, duct rodder equipment, safety lighting, and submersible dewatering pumps. Our manhole shields feature a watertight seal. Our manhole guards provide a rigid and highly visible traffic barrier around open manholes. Pumps are available in various capacities and voltages. Our lights are designed for dependable service under extreme conditions, and are available in 120 volt AC or 12 volt DC and 15 to 40 watt models.

TENTS & SHELTERS

Our tents feature one-piece construction, no loose parts, and instant set up design. Available in many styles, sizes, and shapes. Models available including: ground tents, trench tents, fiber optic tents, emergency-use tents, cabinet-mount & freestanding shelters. Our ground tents can be used in all types of situations, including shelter in inclement weather, or rehab & command posts for emergency responders.
